About Tuas Power Ltd

Tuas Power Ltd is a key solutions provider of energy and utilities, as well as environmental services. The company, a member of China Huaneng Group, is the third largest power generation company in Singapore. It occupies a market share of about 24 percent of the Singapore generation market.

Tuas Power owns generation assets totalling 2,670MW of capacity with four highly-efficient combined cycle plants and two oil-fired steam plants. It is also the first in Singapore to develop and maintain large-scale trigeneration plants for petrochemical and pharmaceutical companies through one of its subsidiaries.
